

# ASHWEK AUTOMATION

## BATCH WEIGHING SYSTEM

**ASHWEK AUTOMATION'S BATCH WEIGHING SYSTEM DELIVERS HIGH-PRECISION MATERIAL HANDLING SOLUTIONS FOR INDUSTRIES REQUIRING ACCURATE AND EFFICIENT WEIGHING AND BATCHING SYSTEM INTEGRATION.**

### High-Precision Batching System

Ensures accurate material weighing and dispensing

### Automated Material Handling

Advanced automation reduces manual intervention

## PRODUCT FEATURES

### High-Precision Batching System

Ensures accurate material weighing and dispensing with batching system accuracy for optimal production consistency.

### Automated Material Batching

Advanced automation reduces manual intervention, improving efficiency and minimizing errors.

### Batching System with Load Cells

Integrated weighing hoppers and batching hoppers equipped with load cells for precise material control.

### Weighing System Integration

Seamlessly integrates with existing production lines and ERP systems for smooth data flow.

### Bulk Material Weighing

Designed to handle a wide range of materials, from fine powders to heavy granules, ensuring operational flexibility.

### Batching Control System

Intelligent control systems allow real-time monitoring and adjustment, optimizing resource utilization.

### Industries & Applications

Our Batch Weighing System is engineered to meet the specific demands of various industries, ensuring precision, efficiency, and compliance with industry standards. Whether for food, pharmaceuticals, chemicals, construction, or agriculture, our system provides reliable and accurate material handling solutions.
